

2020 Hybrid Trainer Institute: Engagement, Reflection, Shared Learning

“ The hybrid model was perfect for my life! It worked because of my work schedule (that turned into my work from home schedule).

“ I feel so much better equipped to teach others about what I have believed was best practice.

“ I am grateful for the experience we shared among participants and facilitators, the support we got even when we are going through a pandemic, the knowledge that I could **apply immediately into my work** to support caregivers who are struggling during this difficult time.

“ This PITC experience helped me realize how many other incredible individuals are passionate about Infant/Toddler care. The drive, knowledge and passion of the PITC educators and my fellow trainees inspired me to continue to grow and spread support within my local infant/toddler care community.
